

STAYING PRESENT

2021 Annual Report

PROLOGUE'S MISSION

To create opportunities for those with behavioral health needs and those experiencing homelessness by promoting positive change and offering person-centered support in recovery. We strive to uphold our core values of community, respect, choice, support, wellness, recovery/hope, team and home.

DEAR FRIENDS,

Staying present. In the moment. Truth is, FY 21 was one of the most difficult years that Prologue has ever faced. We are solid financially, but at our core, Prologue is about community, support, and wellness. This year continued to be uncertain and a challenge, simply because it was more difficult to create and uphold community with those who most need it. There were new and changing norms and regulations. Uncertainty. Shifting, adapting, reframing. And yet, through it all, we persevered. For us, it was all about the present moment. Again and again. Finding moments of serendipity. Little things to be grateful for. Noticing small wins. Being present to it all.

What's certain? Prologue's services are still needed. Greatly. In spite of lingering pandemic challenges, we served more than 2400 people. Some members of our team went above and beyond to deliver services, provide Covid vaccination clinics, continue to provide outreach services and stay connected to individuals in the safest manner possible.

Prologue's CARF (Commission on Accreditation of Rehabilitation Facilities) survey received a three year renewal. We continue to have a positive impact on individuals in our service programs across the board as you'll see throughout this report.

We remain hopeful when we read these stories. When we stay present. When we think about our new outreach facility being planned in Towson. When we receive donations and gifts to support our mission. We are present and grateful.

Warm regards,

A handwritten signature in blue ink that reads "Ken Tabler".

Kenneth Tabler
Chairman of the Board

A handwritten signature in blue ink that reads "Sendy Rommel".

Sendy Rommel
President & CEO

**Life gives you plenty of time to do whatever
you want to do if you stay in the present moment.**

– Deepak Chopra

Prologue was formed in 1982 to offer residential support services in Baltimore County to persons with serious and persistent mental illness. In 1987, homeless outreach services were added and our focus on community-based personal recovery has remained steadfast since.

THE PROGRAMS THAT HELP OUR COMMUNITY...

HEALTH HOME SERVICES

Health Home Services are available to individuals served by the PRP. Health Home provides coordination of care, education, resources and attention to health needs for improved quality of life.

APPROXIMATELY 79 CLIENTS SERVED THIS YEAR.

SUPPORTIVE HOUSING

Prologue assists individuals to obtain supportive housing in one-, two- and three-bedroom units in Baltimore and Carroll Counties.

APPROXIMATELY 33 CLIENTS SERVED THIS YEAR.

HOMELESS OUTREACH

Prologue's Homeless Outreach Program includes outreach, case management services, SOAR (assistance applying for social security benefits), ID Project services (including birth certificate and ID), and rental assistance.

APPROXIMATELY 1495 CLIENTS
SERVED THIS YEAR.

MARTYLOG WELLNESS AND RECOVERY CENTER

Prologue's Martylog Wellness and Recovery Center offers peer support to individuals in recovery from mental illness or co-occurring mental illness and substance use.

APPROXIMATELY 113 CLIENTS SERVED THIS YEAR.

PSYCHIATRIC REHABILITATION

Prologue's Psychiatric Rehabilitation Program (PRP) offers support to adults with mental illness and to those with co-occurring substance use disorders. PRP services encourage an individual's self-sufficiency in life by offering program space, transportation and other resources.

APPROXIMATELY 153 CLIENTS SERVED THIS YEAR.

RESIDENTIAL REHABILITATION

Prologue's Residential Rehabilitation Programs (RRP) provide housing with support services in both Baltimore County and Carroll County.

APPROXIMATELY 81 CLIENTS SERVED THIS YEAR.

SUPPORTED EMPLOYMENT

Prologue helps supply individuals with vocational services through our Supported Employment Program.

APPROXIMATELY 23 CLIENTS SERVED THIS YEAR.

ONE VOICE NORTHWEST

Prologue's One Voice Northwest Recovery Community Center provides peer support to individuals in recovery from substance use or co-occurring substance use and mental illness.

APPROXIMATELY 557 CLIENTS
SERVED THIS YEAR.

TARGETED CASE MANAGEMENT

Prologue's Targeted Case Management Team is focused on assisting participants in gaining access to needed medical, mental health, financial, and other related services.

APPROXIMATELY 21 CLIENTS SERVED THIS YEAR.

WHERE DO I EVEN BEGIN?

HOMELESS OUTREACH / HOMELESS YOUTH PROGRAM

After aging out of foster care at age 21 I felt so defeated. I had literally no plan or no support. I didn't know where I'd live or where my next meal would even come from. For the last few years prior, foster care was all I knew. So finding out I'd be "aging out" soon sent me in the worse depression. I eventually aged out to absolutely nothing – no place to go, no job, no money, no family help, nothing – jumping around place to place, staying on family members' couches.

It was not the life I envisioned for myself. I couldn't believe what my life had become.

Then I found out I was pregnant and knew I had to make a change for the best. After a few years went by of me struggling, doing my best to survive, a friend of mine that I had been in foster care with reached out to me about a program that helps young people who have experienced homelessness. I immediately responded. I was set up with a worker who did everything in her power to help me with my situation, after feeling alone for so long I finally felt like I had help and support.

Within months, I was in an apartment after being homeless for years. Prologue has given me the stability I needed to be a great parent. I'm beyond happy to be back on my feet. With the financial help of Prologue, I've even taken the steps to further my education by taking my GED test, which I wasn't able to do before. Thank you so much Prologue – you've forever changed my life. Without Prologue by my side, none of this would be possible.

”

Now that we have a home, dreams seem possible.

Tesfaye, BWI Homeless Outreach worker 3. Beth Abraham, Program Coordinator with Homeless Outreach, and members of the Flying Eagle Motorcycle Club bringing their donation to the Toy Drive.

PROLOGUE'S CONTINUUM OF CARE

HOMELESS OUTREACH, PSYCHIATRIC REHABILITATION (PRP) AND SUPPORTED HOUSING

When Diane came to Prologue's Homeless Outreach Program she had been living in the woods, homeless for most of the last 17 years. After she became sober from alcohol, she was housed in her apartment, but stress and loneliness led her to relapse. She received Psychiatric Rehabilitation Program (PRP) services but continued to drink until she was encouraged by her supported housing specialist (SHS) and a therapist to take steps to become sober.

In September 2019, Diane entered an inpatient facility to assist her in her first step toward sobriety. Diane and her SHS had discussed obtaining a kitten to help her with her loneliness and isolation, but only if she could become sober and maintained that sobriety.

Diane stayed in the 28-day program and then attended an intensive outpatient program in the community. Meeting weekly with her SHS, sometimes more, helped ensure that she had the support she needed because though she had family members, she had not seen them for over 17 years. Diane maintained her sobriety through the end of 2019 and into 2020 and, as promised, was able to adopt a kitten that she named Cuddles.

2020 brought many challenges, including the death of a close friend who died in her apartment, yet Diane maintained her sobriety. Next, SHS assisted her in reaching out to one of her sons, and she discovered that her sister had had a stroke and was in a nursing home.

Through this continuum of care, Diane has made great progress – she has maintained her sobriety throughout 2021 and is now in touch with both of her sons. Despite some health setbacks, she takes better care of herself, advocates for herself, and has gained self-reliance. Diane still feels that the PRP program is essential social support and is very grateful for all the support Prologue has given her throughout the years to assist in her recovery.

STAYING PRESENT AND CONNECTED WITH PEER SUPPORT

ONE VOICE NORTHWEST

One Voice Northwest is Prologue's peer-staffed recovery community center for those affected by substance use. Led by peers who have traveled the same paths as its members and can offer support in a recovery-oriented atmosphere, members support each other by sharing their knowledge and experience. The Center is a place where people can access information and resources, participate in support groups, enjoy planned activities, socialize and meet new friends.

The pandemic set the stage for One Voice Northwest staff to develop a Facebook page to consistently be a presence for peer support. We have to date, more than 1500 members. Using this platform has allowed us to reach members near and far, some as far as Ireland. We have a format that includes a variety of topics:

- Monday is devoted to the Palate
- Tuesday is Wellness and Mindfulness
- Wednesday is all about Verbal Interaction
- Thursday and Friday are a Mixed Bag of Nuts
(bringing in humor with multiple funny posts and videos)

Throughout the pandemic we have been available through social platforms and through our warmline cell phone to offer additional support through one-on-one conversations.

PROLOGUE STAFF. STAYING STRONG.

Wellness Tips, Superpowers of the Tried and True

During this challenging year, our team has been simply amazing as they continued navigating through uncertainty, shifting and reprioritizing. As a nonprofit devoted to wellness, we thought we'd ask our staff to share their favorite tips for self care or how they tap into their secret "superpower." When they stepped away from the Zoom meeting, here's what they had to share.

For many of our staff, our fur babies – dogs and cats provide comfort and respite. Curling up with a good book, taking a hot, relaxing bath, long walks in the fresh air and sunshine, laughing or doing at least one thing that makes you smile each day also made the list of self-care tips!

Holiday elf, we mean Gary Vornheder, HR Generalist, had a little fun handing out goodie bags to staff as they drove by for the "holiday party!"

For self care, Homeless Outreach Case Manager Stacie Martin likes to plant something or dig in the dirt. One of her favorite quotes comes from Mr. Rogers:

"WHEN I WAS A BOY AND I WOULD SEE SCARY THINGS IN THE NEWS, MY MOTHER WOULD SAY TO ME 'LOOK FOR THE HELPERS. YOU WILL ALWAYS FIND PEOPLE WHO ARE HELPING.'"

Teresa Williams, Baltimore Co. Residential Coordinator, believes her superpower is the ability to deescalate critical situations with calm soothing words. And she signs each email with:

"LET YOUR SMILE BE THE FIRST AND LAST THING THEY SEE. LET YOUR KIND WORDS CREATE A LEGACY NO ONE CAN DENY NOR FORGET."

Pamela Clayton of BCRRP loves to read inspirational quotes, one being from Eleanor Roosevelt.

"A WOMAN IS LIKE A TEA BAG; YOU NEVER KNOW HOW STRONG IT IS UNTIL IT'S IN HOT WATER."

We know that PRP Chef Extraordinaire Genette Mallory's superpower is care through providing nourishing, delicious meals. Here she is with PRP Coordinator Hilary Franco, getting Thanksgiving 2020 deliveries ready.

Accreditation in April

In May 2021 Prologue received a three-year accreditation from CARF based on its recent survey of Community Integration (PRP), Community Housing (RRP), Employment Services (SEP) and Health Home. This accreditation will extend through May 31, 2024. This achievement is indicative of Prologue's dedication and commitment to improving the quality of the lives of the persons served.

Through Rain, Snow, Sleet, and Pandemic

Just because there was a pandemic, vital services did not stop. The Health Home coordinated vital psychiatric services for clients through NP on Call. Other vital services included ensuring bloodwork needs were coordinated twice per month.

Health home provided COVID testing as needed based on exposures through collaboration with County Health Departments from fall 2020 through January 2021.

Health Home Director Chris Green, RN, and RRP Director Kate Verleysen successfully coordinated COVID vaccine clinics (in conjunction with CVS Pharmacies at several residences and Prologue's Milford Mill location. Due to this effort, 64 clients and 18 staff received first and second vaccinations.

PHOTOS FROM LEFT: 1. Chris Green, RN and Health Home Director and a CVS Pharmacy rep for Covid vaccine clinic. 2. COVID vaccines being provided by a CVS Pharmacy rep. 3. After an exposure, we transitioned to drive through testing.

PROLOGUE NEWS

Homestretch for NEW Homeless Outreach Center in Towson

Prologue has provided outreach and case management services to homeless citizens of Baltimore County for more than 30 years. It currently operates an outreach site at 609 Baltimore Avenue in Towson that is open two days a week for homeless people to seek access to basic services. The center is quite old and it was determined that the needs of the population would be better served with new construction designed to accommodate accessibility and to provide adequate room for personal space and social distancing. The new center will be a safe and welcoming space to serve the homeless population more efficiently with additional restrooms, shower facilities, and indoor and outdoor meeting spaces. The new center will be approximately 5000 square feet with a 927 square foot courtyard.

In spite of the obstacles created by the pandemic, Prologue has made steady progress in these early phases. In July, we received notice from the Baltimore County Department of Permits, Approval and Inspections that the recommendation of the Design Review Panel (DRP) had been accepted and approved. Next steps include submitting building and construction plans for permit and putting the project out for bid.

What's most exciting? Envisioning a larger, more accommodating, and welcoming space. To have an accessible space to provide more room to have basic needs met. Also, more showers, washers and dryers, and ample space to store supplies – food, clothing and other necessities.

Some additional funds still need to be secured. Donations are gladly accepted!

EMPOWERING HOPE THROUGH PEER SUPPORT

MARTYLOG WELLNESS AND RECOVERY CENTER

Self-help and mutual support are key to mental health wellness. Prologue's Martylog Wellness and Recovery Center offers peer support to individuals in recovery from mental illness or co-occurring mental illness and substance use.

We love sharing recovery stories. One of our regular members, who we'll call "John," has made great progress over the past three years. John came to us after being hospitalized, which interrupted his employment and his education. In his first year with Martylog, he mostly kept to himself. During year two, he showed interest in socializing. That same year, during karaoke, he would ask staff to play and perform songs for him to listen to. Later, he started to accompany staff and then sing solo. Soon after, he performed solo during a karaoke outing in front of strangers. His mom was very excited when he informed her.

Soon after, John started volunteering at the Center and supporting his peers. When on-site services closed due to the pandemic, he attended all of our virtual activities. In Fall of 2020, he restarted his formal education at the Community College of Baltimore County (CCBC), and expressed interest in becoming more independent and self-reliant. One rather unexpected and beautiful thing to observe was how John's sense of humor blossomed. He kept us laughing those months we needed it most.

John recently relocated to Atlanta with his family and still attends Martylog via Zoom. It's been amazing to watch him move from isolation to socialization and contribution.

Another of our long-term members provided a real life example of hope when she contacted us for support in pursuing a long-time dream of working with animals. Even with a steady work history, she had been turned down for positions like pet grooming in retail chain stores. With the help of our peer support, she felt empowered to overcome emotional obstacles and time management issues to register for the Professional Animal Workers (PAWS) Certification program for individuals with disabilities at CCBC.

It's exciting to see how our participants support and encourage their peers, especially through a pandemic year! Shifting to virtual peer support programs and providing one-on-one conversations and support through our warmline cell phone proved to facilitate wellness and offer hope.

HOUSING STABILITY SUCCESS

TARGETED CASE MANAGEMENT

The Targeted Case Management Program (TCM) is designed to improve the overall quality of life for adults with serious mental health disorders in order to promote their long-term recovery. A primary focus of these services is to prevent homelessness and incarceration and to divert individuals from unnecessary inpatient emergency room use and institutional levels of care, whenever possible, in an effort to increase community stability and tenure through referral to and engagement in behavioral health treatment and support services.

The TCM served 21 individuals and their families.

Two highlights this year:

- Staff worked with a family that was close to eviction. In an extremely short amount of time, Prologue was able to house the family in a new unit and assist them in acquiring key necessities like beds, furniture, and food.
- An individual who was receiving services from the TCM passed away, leaving her four children. Her oldest daughter, who was 19, wanted to keep the family together and worked hard with Prologue, DSS, her sibling's fathers, and the school system to make that happen. During the application process time, she was pregnant with her first child. In May, she was approved to take her mother's place as the head of household in the continuum of care program just after celebrating her 20th birthday and giving birth to her daughter. The family was able to stay in the same home and not disrupt the children's school or current support network. She is now caring for her four siblings (ages 8, 11, 13, and 17) as well as her own baby. She was able to maintain her employment until her baby was born. She successfully kept her siblings enrolled in school and applied for their benefits. Although it's been a very emotional year for the family, they are happier knowing that they can stay together and have housing stability again.

BRINGING HOME A LITTLE HOLIDAY CHEER

RESIDENTIAL REHABILITATION PROGRAM

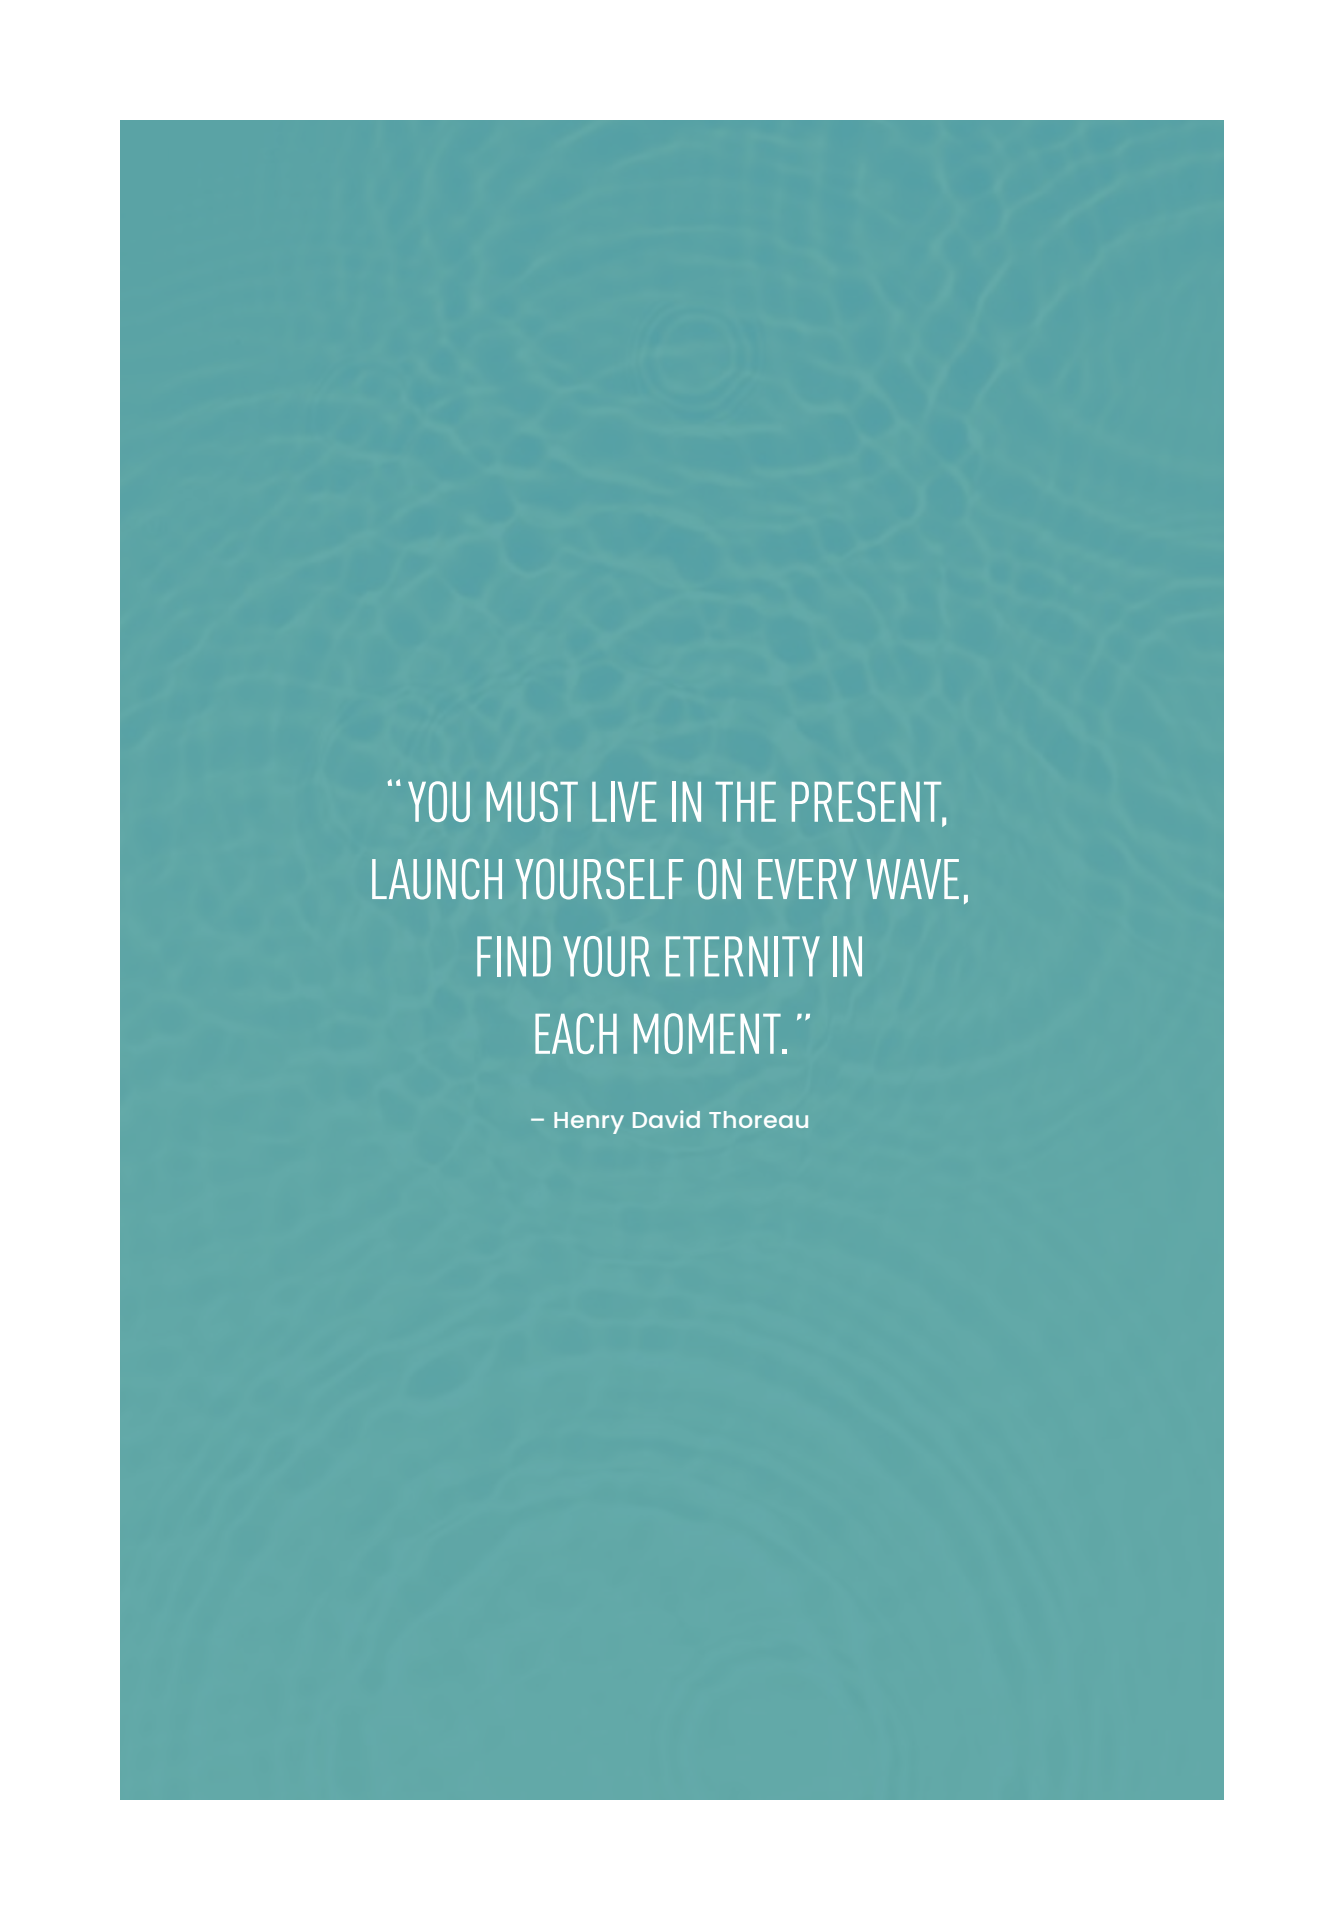

The Residential Rehabilitation Program (RRP) provides housing in the community for individuals who are managing mental illness. The RRP also provides staffing based on the individuals' needs and level of service. Staff provides rehabilitation and recovery services such as medication management, assistance with skill development (activities of daily living), symptom management, community integration, social integration, and conflict resolution. Services are provided in the individuals' residence or in community settings.

RRP has 16 homes in Baltimore County and 10 homes in Carroll County and served 81 individuals this year.

Due to the COVID-19 pandemic, clients were unable to participate in our annual in-person winter celebration. This year we did things a little differently and had a holiday home decorating contest. The participation was great and everyone had a fun time decorating, spending time together and bringing in some holiday cheer at home!

PHOTO: (from left) Residential staff members Teresa Williams, Baltimore County Coordinator; Bri Morris, Carroll County Coordinator; and Kate Verleysen, Residential Director helping spread some holiday cheer.

“YOU MUST LIVE IN THE PRESENT,
LAUNCH YOURSELF ON EVERY WAVE,
FIND YOUR ETERNITY IN
EACH MOMENT.”

– Henry David Thoreau

PROLOGUE/PROLOGUE FOUNDATION DONATIONS FY 2021

Without the continued support from the following list of dedicated and committed friends of Prologue, Inc. and Prologue Foundation, Inc., our ability to provide the quality and quantity of necessary and vital services to individuals and families would be greatly diminished. We sincerely appreciate our friends' involvement and generosity.
